

Security Information and Event Management [SIEM]

Watchdog and first responder
for critical systems and data.

ASSURA[™]
Cybersecurity uncompromised.

Assura's Managed SIEM identifies and manages cyber attacks 24/7/365.

Packages that meet any organization's need:

KICKSTARTER

Quickly gets your SIEM up and running.

- Business hour investigation and reporting SLA
- Managed log collection and monitoring
- Human investigation of all alerts
- Active hunting for threats in your environment

SENTRY

Enhanced SLA and cybersecurity insights.

Includes everything from "Kickstarter" in addition to:

- 24/7/365 investigation and reporting SLA
- A dedicated portal with a reporting dashboard and analytics
- Root cause analysis, monthly service reporting, expert trend analysis, and service check-ins
- 1-hour time-to-first response SLA

SHIELD

Stops threats to critical assets dead in their tracks.

Includes everything from "Sentry" in addition to:

- AI-driven threat blocking
- Remote incident response
- Remote forensic analysis

What you need to know:

- Eyes on glass protecting against attacks
- We deliver rapid notifications of Service Level Agreements (SLA) for critical alerts
- Network monitoring only looks at performance and is not the same as SIEM
- Our SIEM fulfills all pertinent compliance requirements guaranteed

Guaranteed compliance with these standards and regulations:
